

STUDENT AGREEMENT

1. Preamble

1.1 Scope

This agreement sets out the role, rights and duties of the parties directly involved in ensuring the successful completion of the EMJMD LASCALA by the student mentioned below. The parties commit to comply with the rules of each partner university and customary practices.

General information about the Erasmus Mundus Joint Master Degrees:

https://eacea.ec.europa.eu/erasmus-plus/actions/key-action-1-learning-mobility-individuals/erasmus-mundus-joint-master-degrees_en

1.2 Student

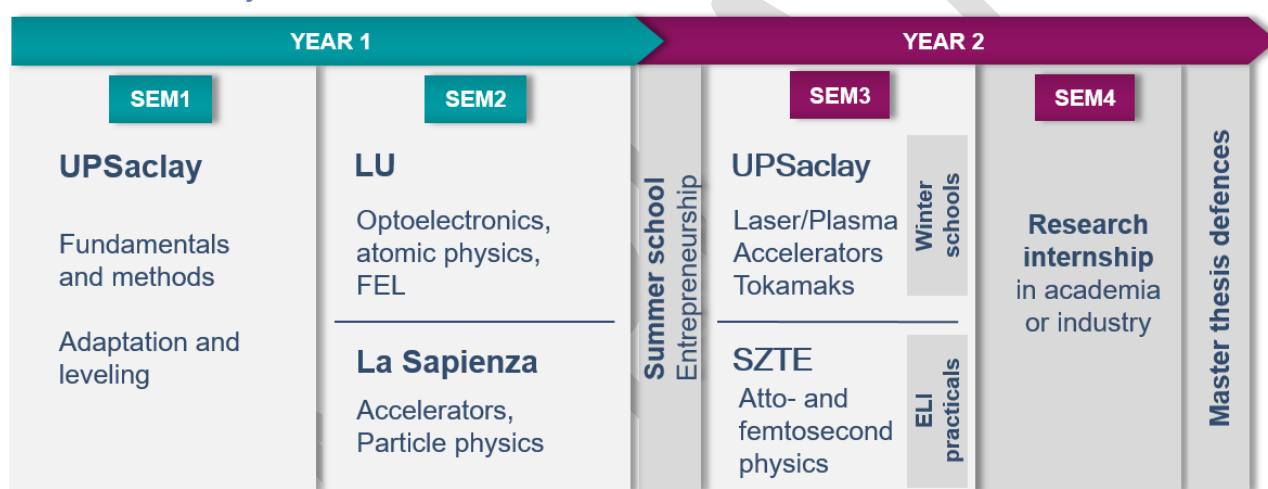

Name: xxx

Nationality: xxx

Category of the Student: xxx

2. Academic issues

2.1 Mobility scheme

The student will attend courses in **at least two partner universities** of the Consortium in different countries:

- University semester 1: Université Paris-Saclay (France)
- University semester 2: Lund University (Sweden); Sapienza University of Rome (Italy)
- University semester 3: Université Paris-Saclay (France); University of Szeged (Hungary)

The Consortium partners fully recognize courses which are developed within the programme, as well as examinations passed at the other institutions of the Consortium.

2.2 Local coordinators

The LASCALA consortium has appointed the following local coordinators:

Institution	Coordinator	
University Paris-Saclay (France)	Professor Sophie Kazamias	sophie.kazamias@universite-paris-saclay.fr
Lund University (Sweden);	Professor Cord Arnold	cord.arnold@fysik.lth.se
Sapienza University of Rome (Italy)	Professor Gianluca Cavoto	gianluca.cavoto@uniroma1.it
University of Szeged (Hungary)	Professor Laszlo Arpad Gergely	laszlo.a.gergely@gmail.com

2.3 Tutors

Each hosting institution will appoint a tutor to the students. The tutor should advise or give assistance to the student during his/her stay at the institution.

2.4 Study programme

The mobility choice for the second and third semesters is made during the first semester after a personal meeting with the local coordinator of UPSaclay, in relation with the local coordinators of other partner universities.

The medium of instruction and examination is English at each university

2.4.a SEM1: Details of study programme at xxx

2.4.b SEM2: Details of study programme at xxx

2.4.c SEM3: Details of study programme at xxx

2.4.d Summer school

The Summer school will be held after the second semester at the University of Genoa (Sosmse – School on Science Management for Scientist and Engineers). The aim of this intensive programme is to develop students' science management skills and entrepreneurial skills.

2.4.e Winter school

The Winter schools will be held at the end of the third semester. The aim of this intensive programme is to develop students' skills in various large scale installations. Depending on the students' specialization, the students will spend their winter school either at: CERN (JUAS school for joint university accelerator school) ; ITER Cadarache (for fusion tokamaks) ; LMJ (Laser MegaJoule Bordeaux) or ELI.

XXX chose the XXX specialization and will participate in the Winter school XXX.

2.5 Internship and Master thesis (2nd year students)

2.5.a Procedure

During the third semester, the student proposes to the local coordinator of the university where he/she is studying a possible subject of study, including name of potential supervisors and hosting laboratories, based on career objectives and pedagogical consistency with his/her curriculum. Internships in academic laboratories must be hosted by one of the partners institutions or associated partners. If the student chooses to perform an internship in a company, it can be anywhere in the world. The final choice of internship will be decided together with the local coordinator.

Depending on the rules of each host institution for the semester 3, internship contracts may be signed between the laboratory/company and the university where the student is registered. A copy should be sent to the manager of the master at the University Paris-Saclay.

2.5.b Evaluation

The student will be evaluated on the basis of his/her report and his/her oral defense in front of an international jury. This oral examination will be common to all the students. Each partner institution will be represented. The evaluation given to the thesis work and to its defense will be recognized by all degree awarding institutions.

2.6 Mandatory activities and further academic training

2.6.a Mandatory activities

1) Participation of the student is mandatory in all the activities organized within the master:

- academic courses detailed in the study programme,
- Summer and Winter school,
- visits (including industrial sites),
- outreach activities training,
- meetings with local coordinators,
- seminars and conferences.

Students must arrive on time to the lectures and must be present at the host university site for the whole semester, with the only exception of the official academic vacation periods communicated by the local coordinator.

In case of absence due to health problems, the student may be requested to provide a medical certificate to the local coordinator. This holds true in particular for the exams, the calendar of which will be announced at least two weeks in advance.

The student will have to inform the local coordinator in case he/she is not in a position to attend the foreseen activities. More generally, the student must keep the local coordinator of the hosting institution informed about possible difficulties he/she might encounter.

2) The Consortium requires the student to participate in the evaluation and the quality assessment exercises (**surveys/evaluations**) in which he/she will make his/her opinion known with regards to all aspects of the programme during and at the end of each semester.

3) The student must acknowledge the Erasmus +: Erasmus Mundus programme in all the documents (presentations, publications,...) produced during the master.

The following sentence can be used: "With the support of the Erasmus+: Erasmus Mundus programme of the European Union"

4) The consortium also strongly encourages the students to **join the Erasmus Mundus Students and Alumni Association** (EMA, see <http://www.em-a.eu/>)

5) The student engages to behave with **ethics** during his/her studies. He/she will commit no fraudulent act and will specially avoid cheating, falsification or plagiarism of any academic work. In addition, following conducts are prohibited: academic misconduct, endangering behaviors, use of mobile phone during courses and exams, destruction of property, dishonest conduct and hazing. Moreover, he/she will not abuse or misuse the access to equipment and installations and will not perform any unauthorized access or violation of departmental, school or university rules. Moreover, the university rules of each hosting university have to be respected by the student.

Any incident against this compromise will be treated by the Pedagogical Council of the host institution and by the Consortium board. It may cause the exclusion of the student from the LASCALA Master.

In case the student receives a scholarship, the latter will be immediately stopped.

2.7 Duties of local coordinators

The local coordinators guarantee to help the student with all administrative procedures related to his/her participation in the LASCALA programme.

The local coordinators shall also hold the role of academic advisor, including supervision of the internship preparation.

The local coordinators are responsible for informing the student of the academic calendar and, in particular, on the examination periods. They will also inform the student at the beginning of the academic year regarding the rules for the conduct of examinations.

The local coordinators will ensure that the candidate is in the best possible situation to complete his/her study programme according to the foreseen plan. Local coordinators will have to monitor the student's progress and inform the other coordinators about possible problems that might arise.

The local coordinator helps the candidate planning and organizing his/her mobility.

The local coordinator together with the Consortium partners organizes activities specifically aimed at maximizing the student's high-level employment opportunities. Among other activities, the Consortium will accompany the candidate's insertion in student, research and professional networks.

2.8 Students evaluation assessment

To obtain the multiple diplomas, the student must succeed at each semester and pass all the courses. The evaluation rules depend on the rules of the hosting institution (see below). There is no compensation between the semesters. The master thesis (semester 4) cannot compensate the academic semesters. The grading system of each institution is depicted below.

GRADING SYSTEM

Grading system at the University Paris-Saclay: *Scale: 0 - 20*

Grading system at the University of Rome La Sapienza: *Scale: 0 - 30*

Grading system at the University of Szeged: *Scale: 1 - 5*

Grading system at the University of Lund: *Scale: F - A*

COMMON SCORE CONVERSION TABLE *(to be elaborated during the preparatory year)*

In case of **failing a subject**, a second session of examination will be organized. If the student failed a subject during the second examination, he/she will have to abandon the programme. In case the student receives a scholarship, the later will be stopped and the student will lose the rest of the scholarship.

2.9 Diploma awarded

Level of qualification: 5 years higher education studies (300 ECTS)

Official length of the programme: 2 years (120 ECTS)

2.9.a Type of degree

This programme will lead to the awarding of a double/multiple degree. The student will be awarded the diplomas of each university he/she studied at during at least one academic semester (semester 1, 2 or 3) :

- University Paris-Saclay (France) : Master in Physics
- Lund University (Sweden) : Master of Science in Photonics
- Sapienza University of Rome (Italy) : Master in Physics
- University of Szeged (Hungary) : Master in Physics

The diplomas are awarded by the academic authorities empowered to do so, on the basis of the results the student has obtained at the different hosting institutions, according to the defined study programme.

2.9.b Diploma Supplement

A complete Joint Diploma Supplement will be attached to the degree certificates. The Joint Diploma Supplement describes the master design and the student performance, highlighting the international mobility of the training.

2.10 Intellectual Property

The student hereby agrees that his/her thesis title and abstract will be posted on the LASCALA website when his degree is awarded. He/she also agrees that the degree awarding universities may store and protect the master thesis either as a hardcopy or as an electronic version following their respective procedures. **The results of the student's work (material and data) belong to the hosting laboratories institutions.** Laboratory notebooks must stay in the laboratories. **Plagiarism is strictly forbidden.** In case of plagiarism, the student will be severely punished according to the rules of each partner institutions.

2.11 Right to the image

The student grants permission to the Consortium Partners, and their representatives, to take photographs and videos, and to make recordings during the Master.

The student grants also the Consortium Partners the right to reproduce, use, exhibit, display, broadcast and distribute and create derivative works of these images and recordings in any media now known or later developed as well as his/her name for promoting, publicizing or explaining the LASCALA Master, all the initiatives ensuing from it comprised, and its activities and for administrative, educational or research purposes.

3. Administrative issues

The student will be a full member of the student community at each hosting institution. As such, the student will be assisted for the administrative procedures (visa, permits of stay, housing, insurance, access to a bank account) and will be granted the means necessary to complete the study programme (access to lab facilities, libraries, computing facilities). The student will also be made part of institutional social activities. The tutor and the local coordinator should make sure that such measures are enforced.

For each student that has been accepted to the programme, and paid the tuition fees for the master, either directly or through the Erasmus+:Erasmus Mundus scholarship, the consortium contracts a **private insurance before their arrival**, ensuring in this way the **medical insurance cover of the student**. This last covers their unexpected medical expenses,

it also provides accident cover, and protects them against some costs arising from civil liabilities (third-party insurance). This medical coverage also applies during periods of travel during the master.

The private insurance will be provided by the Expat & Co (<http://www.expatsinsurance.eu/>), covering the minimum requirements for the health and accident insurance coverage required for Erasmus Mundus Joint Master Degrees

Each student receives an insurance certificate before the start of the programme, as well as the general conditions of the insurance. These should be read carefully in order to know for which risks and health issues the student is covered. In case medical care has to be reimbursed or when problems arise, the student will contact personally the Expat & Co insurance company (contact details can be found on the insurance certificate).

4. Financial issues

4.1 Student's participation cost, available funding and support, and payments

4.1.a Participation costs

The participation costs amount to:

- 8450 €/year for Partner country students
- 4500 €/year for Programme country students

This amount covers the following items:

- Registration fees at each university
- Additional costs: language courses, company visits, lab trainings, tutoring, international insurance, Summer school, Winter school, social activities and graduation ceremony.

Tuitions fees do not include any travel and transportation cost.

4.1.b Participation costs management

For Erasmus+: Erasmus Mundus scholarship holders, the **participation costs are directly paid by EACEA to the Coordinating institution.**

For self-financed students, the participation costs will be paid by the student to the Coordinating Institution. The payment for the first year must be done before the registration at the university. A payment certificate will have to be sent to the manager of the master.

4.1.c Erasmus +: Erasmus Mundus Scholarship

Scholarship amount received by the students:

	Partner countries	Programme countries
I – Contribution to travel, installation, visa and related costs	2000 € per year for travel costs + 1000 € for installation costs for students whose location is situated at less than 4.000km from the coordinating university (Paris) 3000 € per year for travel costs + 1000 € for installation costs for students whose location is situated at 4.000km or more from the coordinating university	1 000€/year
III – Monthly allowance	1 000€/month	1 000€/month

The Coordinating institution will pay the overall amount directly to the students under the following conditions:

- The fixed contribution to travel costs, installation costs and other type of costs, will be paid in two installments at the end of September of the first and second year.
- The monthly allowance will be transferred to the **bank account** of the student on a monthly basis and **it is due by the end of the month**. For this purpose, a bank account will have to be opened as soon as possible upon arrival. The hosting university/tutor will help the student in this issue, and the bank account details (+official print out of the bank) will be communicated to the manager of the coordinating institution.

The students are responsible for submitting the correct data concerning their bank account. If the bank account details appear to be wrong, subsequent bank fees will be charged to the student. Students must be aware that changing their bank account during the year might results in delay of their monthly allowances.

4.2 Student's exclusion/withdrawal

Cases of **termination of the contract between the student and the consortium**: the student decides to withdraw for personal reasons or he/she is **excluded** from the LASCALA programme after adequate warning, because of insufficient performance or serious infringement of the ethical code mentioned above.

In case of termination of the contract between the student and the consortium, the student will have to reimburse the extra money he/she received after the date of his/her resignation.

5. Modification, mediation and cancellation

It is the signatories' responsibility to inform in writing the LASCALA coordinator of any changes in this agreement.

The study programme can be modified by the student with the agreement of the local coordinator before signature.

Changes to the original proposed study programme must be approved by the student, the LASCALA coordinator and the relevant local coordinators.

All changes in the financial conditions have to be brought to the attention of all parties to this agreement, which will work collectively towards warranting the student the best possible conditions under the existing constraints. Once these new conditions have been determined, they will have to be included into an amendment of this agreement. In case of minor changes to this agreement, an amendment may be proposed by the party concerned and incorporated to the agreement as an annex signed by all parties.

Any breach of contract by the student may lead to the cancellation of this agreement.

Any conflict among the parties signing this agreement should be brought to the attention of the LASCALA coordinator, who will seek the best way to resolve it in collaboration with the LASCALA consortium.

The main coordinator is responsible for the formalization of this agreement upon the student's arrival, whereas the amendments formalized during the following semesters can be dealt with by the local coordinators of the Partner institutions.
